Note 1: The day counter increments when the player eats an apple on a day that they haven't eaten an apple yet.

Every sunrise, it will check at least one apple was eaten in the previous day. If there wasn't, it will reset the day counter for apples. If there was, it resets the apple eaten scoreboard, meaning the player will need to eat another apple on this day

Note 2: You have to add the following flowers to stew: Oxeye Daisy, Cornflower, Lily of the Valley, Wither Rose, any Tulip, Azure Bluet, Allium, Poppy, and either Blue Orchid or Dandelion

Note 3: You have to use bone meal on: Wheat, Carrots, Potatoes, Beetroots, Bamboo, Melon Stems, Pumpkin Stems, all six types of Saplings, Sunflowers, Lilacs, Rose Bushes, Peonies, Grass (so it turns into Tall Grass), Ferns (so it turns into Large Ferns), Seagrass (so it turns into Tall Seagrass),

Red Mushrooms, Brown Mushrooms, Cocoa, Sweet Berry Bushes, Sea Pickles, Kelp, Weeping Vines, Crimson Fungus, Warped Fungus, Glow Lichen, Small OR Big Dripleaves, Cave Vines, Azaleas and Flowering Azaleas

You do NOT need to bone meal blocks that indiscriminately grow plants (e.g. Grass, Nylium, Moss, underwater blocks to get Seagrass, etc)

Known bug: Red Mushrooms, Brown Mushrooms, Azaleas and Flowering Azalea only count if you bone-meal them but they don't immediately grow. This is due to how the item_used_on_block trigger works and can't be fixed, but bear this in mind.

Note 4: A detailed list of what items can be composted can be found on Minecraft Wiki's Composter page (also I'm too lazy to type it all out so go look it up :))

Note 5: You have to eat: Apple, Mushroom Stew, Bread, Golden Apple, Notch Apple, Melon, Carrot, Potato, Baked Potato, Poisonous Potato, Golden Carrot, Pumpkin Pie, Chorus Fruit, Beetroot, Beetroot Soup, Suspicious Stew, Sweet Berries, Honey Bottle, Glow Berries, Cookie

Note 7: You have to eat everything required for Vegetarian and Meat Lovers
